## Stones and Bones, Claws and Jaws

### *Evangelistic Event*

This fast moving Creation vs. Evolution outreach attracts large numbers of the unsaved. It is a magnet for young couples with children; teens love it; adults are challenged by it. The outreach potential is tremendous.

I bring a mobile museum of authentic fossils including Raptor and Hadrosaur dinosaur eggs, a huge 200 pound Mastodon tusk, a rare T-Rex-sized carnivore track in coal, and a 100 pound dinosaur dung specimen.

Beginning with the fossil evidence for creation, I use a PowerPoint presentation illustrating the phenomenal supernatural design in such things as dinosaur eggs, bat sonar, and lobster eyes. I explain how the fossil record does not provide evidence of the evolutionary struggle from simple to complex but rather complexity from the beginning with no transitional forms.

Numerous mass dinosaur graveyards are examined to demonstrate how only a literal world-wide flood could have created the fossil record.

I conclude this *Fossil Evidence for Creation and the Flood* outreach with a presentation of the gospel. These evangelistic events have brought many to faith in Christ.

**Optional Part 2** – We examine the reasons why The Flood is the only event that could have produced one Ice Age. Ice cores, the mammoth mystery, and Neanderthals are also discussed briefly.

### *Kids Dino Fest Outreach*

Children love the twenty-five dinosaur and Bible- theme games that we bring for this fun, age appropriate event. We focus on three dinosaurs: the soaring Pterosaurs, the Triceratops and the Leviathan. The lives of these dinosaurs are traced from their creation to the catastrophic events of The Flood. The highlights of our presentation are a life-size Leviathan skull (six feet long with forty-eight T-Rex sized teeth) and a Triceratops skull. A gospel presentation concludes the event.

### *The Heavens Declare the Glory of God*

Wow! is the word most people use as they enter our portable planetarium. It seats eighty people and is much larger than the photo indicates. This dome is used to show God's immensity, glory, power and care. The dome is large and requires a clear space of 27' x 27' x 15'. In December 2005 we will be offering a special program called *The Star of Bethlehem*.

### *Who is Paul Veit?*

Paul Veit is a graduate of Nyack College and Denver Conservative Baptist Seminary. He is pursuing on-going paleontological training at the Mt. Blanc Fossil Museum. He is ordained in the Christian Missionary Alliance and is licensed as an evangelist. He is the Founder and Director of Declare God's Wonders, Inc., an evangelistic ministry, and the New England Creation Education Center.

### *Beliefs about Creation:*

Exodus 20:11 - God says in the ten commandments, "for in six days the Lord made the heavens and the earth, the seas and all that is in them..." . I believe in a literal six day supernatural creation. I believe the flood of Genesis was an actual historical event, worldwide in it's extent and effect.
